Derivatives with Anti-Tumor Activities

## WORK EXPERIENCE

### CAPACITY, St. Louis, MO

Data Labeler, August 2019 – Present

- Organize and clean data for use in training artificial intelligence models.
- Keep up-to-date with industry tools to ensure day-to-day tasks are completed with quality and efficiency in mind.
- Communicate cross-functionally to ensure the team's efforts are directed at the highest business priority.

### LABEL INSIGHT, St. Louis, MO

Product Specialist, May 2018 – Jun 2019

- Acted as a subject matter expert on consumer packaged goods by staying up-to-date with trends and regulations.
- Collaborated with clients to develop unique health and wellness programs and data offerings, often requiring months of effective communication to accomplish.
- Independently drove projects cross-functionally and within a small team, communicating progress to leadership verbally and in writing.

Data Quality Analyst, Nov 2017 – May 2018

- Managed internal database taxonomies and informed decisions on how data should be interpreted and presented to users.
- Quickly shifted priorities to account for changing business needs, requiring organization to meet deadlines.
- Consistently met quarterly goals to propel the company's mission and career growth.

### PDC Labs, Florissant, MO

Staff Analyst Jun 2017 – Nov 2017

- Analyzed client waste samples to ensure local guidelines were met before disposal.
- Developed a tracking system in Google sheets to ensure regulations were met and duplicate work was not performed.

### Walgreens, Beaverton, OR

Patient Care Technician Jun 2016 – Apr 2017

- Effectively communicated sensitive topics with customers who had varying depths of knowledge via email, fax, and phone.
- Utilized industry knowledge to aide customers in problems that were unique to their situation.
